

Practice Manager - Final Word

It is with great sadness that I take early retirement from this wonderful Practice at Christmas. I would like to take this opportunity to thank everyone, including the many patients who have extended their best wishes to me for the future. Thank you.

The Practice is about to embrace yet more challenges that clearly require the services of a full time manager and that is something I am no longer able to provide. The biggest challenge without doubt is the proposed new building, the plans of which are being currently subjected to assessment by the local planners to obtain the necessary building permission. Soon after, hopefully successful application, the plans will be made available to everyone to view. Thereafter the tendering process will begin in earnest and eventually the actual building process will finally begin!

The building process will extend to about a year and will no doubt have some fraught moments along the way—but it will be worth it! The resulting building and facilities will be something that will be admired and enjoyed by staff and patients alike for many years to come.

Evermore changes within the NHS present other financial and logistical challenges, many of which are being addressed by the local practices as a combined Locality Group. Local Practices are working in close co-operation and many new initiatives will follow from this Group that will be of considerable benefit to West Devon patients, and indeed beyond.

Once again, thank you to everyone associated with this wonderful Practice for making my relatively short tenure such a delight. However, as I shuttle back and forth from Whitchurch and France, I hope to see many of you in the future.

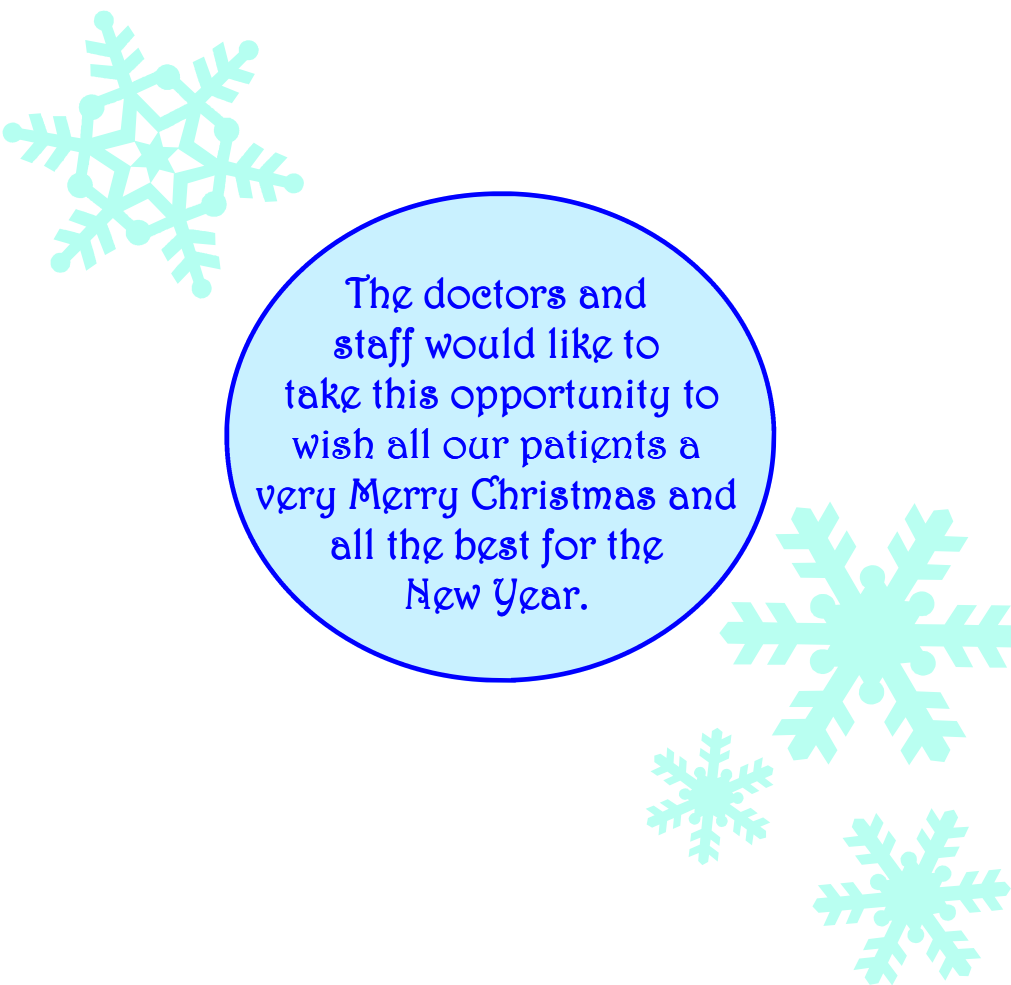

Terry Rose
